## Electronics Equipment Familiarization II

Name $\qquad$ ID $\qquad$
Partners $\qquad$
Date $\qquad$ Section $\qquad$

Do not set the multimeter to "Current Mode" unless you are sure that you will not exceed the maximum current for the fuse.

## 1. Measuring Voltages and Currents in a Circuit

Pick up two of resistors, and read the resistances with the color codes. (See the last page.)
Resistor 1:
Color 1 $\qquad$ Color 2 $\qquad$ Color 3 $\qquad$ Color 4 $\qquad$

Calculation:
$\qquad$ (1)

Resistor 2:
Color 1 $\qquad$ Color 2 $\qquad$ Color 3 $\qquad$ Color 4 $\qquad$

Calculation:
$\qquad$

Connect each resistor as follows and measure the voltage and current in the resistor. Choose 5 volts from power supply.

|  | Voltage (V) | Current (A) | Resistance ( $\Omega$ ) <br> (voltage $\div$ current) |
| :---: | :---: | :---: | :---: |
| 1 |  |  |  |
| 2 |  |  |  |

## $\diamond$ Question 5:

Are the results in the third column similar to the ones you found with the color codes?

## 2. Simple Circuit Analysis

Find resistances for three resistors (use color codes or multimeter).
$R_{1}=$ $\qquad$ $R_{2}=$ $\qquad$ $R_{3}=$ $\qquad$

Make a circuit as follows:

Record the source voltage found in the power supply.
$V($ source voltage $)=$ $\qquad$
Measure following:

$V($ source $)=$ $\qquad$ , $V_{a b}=$ $\qquad$ , $V_{b c}=$ $\qquad$
$I_{1}($ total $)=$ $\qquad$ , $I_{2}=$ $\qquad$ , $I_{3}=$ $\qquad$

Calculate these two.

$$
\begin{aligned}
V(\text { source }) & =V_{a b}+V_{b c} \\
I_{1}(\text { total }) & =I_{2}+I_{3}
\end{aligned}
$$

## $\diamond$ Question 6:

Does your measurement hold the above equations?
Calculate these ratios.
$R_{3} / R_{2}=$ $\qquad$ and $I_{2} / I_{3}=$
$\diamond$ Question 7:
Are those vales close enough? (They should be the same.)

## 4-band Resistor

| Color | $1^{\text {st }}$ band value | $2^{\text {nd }}$ band value | Multiplier | Tolerances |
| :---: | :---: | :---: | :---: | :---: |
| Black | 0 | 0 | $\times 1$ |  |
| Brown | 1 | 1 | $\times 10$ | $\pm 1 \%$ |
| Red | 2 | 2 | $\times 100$ | $\pm 2 \%$ |
| Orange | 3 | 3 | $\times 1000$ | $\pm 3 \%$ |
| Yellow | 4 | 4 | $\times 10,000$ | $\pm 4 \%$ |
| Green | 5 | 5 | $\times 100,000$ | $\pm 0.5 \%$ |
| Blue | 6 | 6 | $\times 1,000,000$ | $\pm 0.25 \%$ |
| Violet | 7 | 7 | $\times 10,000,000$ | $\pm 0.10 \%$ |
| Grey | 8 | 8 | $\times 100,000,000$ | $\pm 0.05 \%$ |
| White | 9 | 9 | $\times 1,000,000,000$ |  |
| Gold |  |  | $\times 0.1$ | $\pm 5 \%$ |
| Silver |  |  | $\times 0.01$ | $\pm 10 \%$ |
| No band |  |  |  | $\pm 20 \%$ |
