

Hello Dr. Hiro,

This letter is to express my gratitude and thankfulness as you have helped me throughout my undergraduate career. You helped me to gain a broader knowledge of Physics and how it actually relates to my life. Never before have I had such a hard time conquering a subject, however, Physics was definitely a great challenge of mine. With your help however, I was able to understand physics and also attain a great grade within the course itself. Your willingness to help others unconditionally has helped me to definitely understand what it means to be a servant leader. I shall strive to uphold all that is good, and definitely give back to community, as you have definitely given back to me. I would just thank you for helping me to realize that I am able to conquer even what I think is the impossible.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin Dyer". The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.

Justin Dyer
